**Date:** April 2, 2015  
**Re:** **Bedford Township Road Committee Report**

---

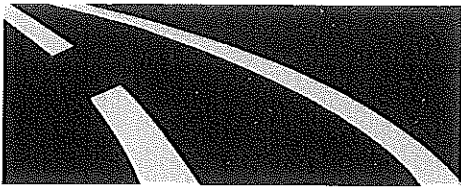

Attached is an updated listing of Road Maintenance and Improvement Projects that the Road Committee has been working on over the past few months – all of which we hope to have completed between now and June 30, 2016. The schedule indicates the estimated breakdown of project costs between the township, the Road Commission, and Federal funding.

This is an admittedly aggressive list of projects, for which a brief explanation is in order:

- Project No. 1: contract was approved by the Board on January 20, 2015 (\$327,000 to be reimbursed by Federal funding approximately October 1, 2016)
- Projects No. 2 – 7: contracts included in Board packet for approval tonight
- Projects No. 8 – 14: projects for which the Road Committee is seeking approval from the Board to proceed with engineering specs and bidding process
- Projects No. 15 – 20: Overband crack fill projects to be fully funded by MCRC (no contracts required)
- Project No. 21: Federal resurfacing project funded substantially through Federal and state resources
- Project No. 22: Federal intersection signal and signage upgrade/safety project funded substantially through Federal resources
