

Bedford, put funds, time to better use

On Feb. 15, the Bedford Township Board of Trustees is scheduled to decide whether to appeal the recent Whitman lawsuit judgment ("Action on Whitman suit set for Tuesday," Feb. 9). As a township resident for 64 years, I implore the board not to waste more time and taxpayers' money.

By appealing the most recent decision, the board appears to be throwing good money after bad. I encourage the board to spend our money and their time on a positive approach, by encouraging commercial development in Bedford Township. We could use the tax base and new income.

I hope Bedford Township residents will contact township officials to let them know how they feel about the appeal. It's our money that is on the line.
