

Greg Stewart has drive to change Bedford Township

I met Greg Stewart in 2000 when he and I were both running for Bedford Township trustee. Although I did not win a position as an elected official, I gained something even more important, a friend.

A couple of years later, I wanted to start a business in my new hometown of Bedford Township, so I called Greg for advice. He recommended resources to help get my business going and gave me tips on how to make it a success. His advice helped earn my business a "Best Small Business" award from the Monroe Industrial Development Corp. just two years later.

In the last few years, I have, unfortunately, lost some of my passion for Bedford. I love the people in the community, but it lacks the atmosphere I desire. I travel to other cities and see things I wish we had here in our community. Driving down Lewis Ave. and seeing closed businesses with overgrown weeds and empty buildings is a long way from the lively, thriving communities I admire.

When I read that Greg was running for the supervisor of Bedford this year, I was ecstatic! I knew that he had the leadership and people skills that would make him a tremendous asset to our township. He has the business knowledge, township management experience, drive and dedication to make our township a model others will admire.

I am excited to regain my passion and pride for a new and improved Bedford under Greg Stewart's leadership and eager to mark his name on my ballot on Nov. 6!
